

INLET FEATURES

MARINCO®

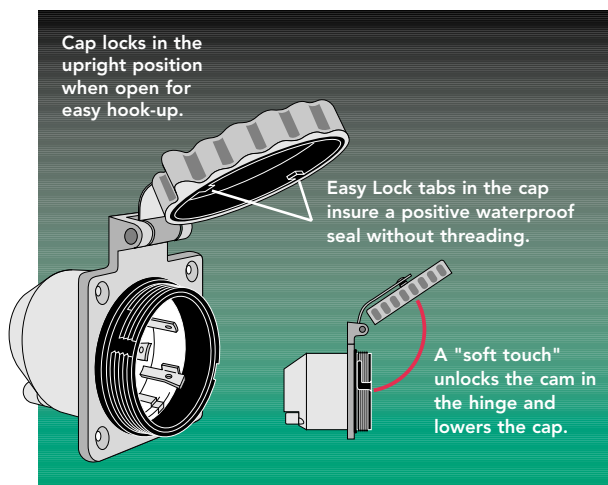

EASY LOCK™ SYSTEM

MARINCO's exclusive Easy Lock™ System has been designed to make hook-up quick and easy. Just connect the cordset (with an Easy Lock™ locking ring installed) to the inlet and turn the locking ring less than a quarter turn. The tabs on the locking ring lock into the inlet for a positive watertight hook-up while eliminating any chance of cross threading. The locking ring features lock locators positioned at 180° to improve finger grip during attachment. Easy Lock™ inlets have a threaded boss that will accept threaded cordsets as well. Easy Lock™ is a standard feature on all MARINCO 30A and 50A inlets and cordsets.

MARINCO®

SOFT TOUCH INLETS

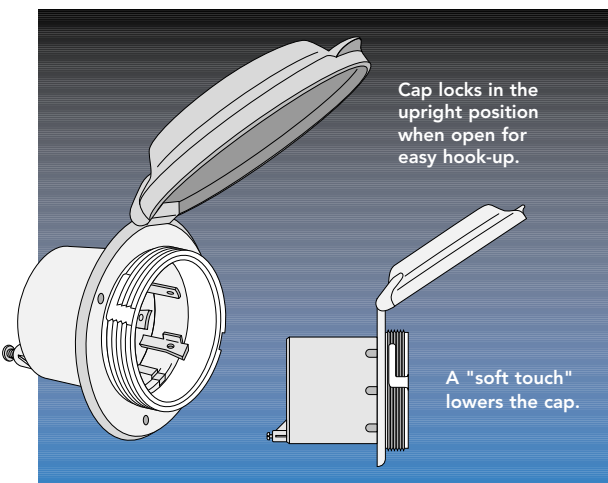

SOFT TOUCH STAINLESS INLET

MARINCO stainless steel inlets feature the Soft Touch cap design. The Soft Touch hinge is designed with a special cam feature that allows it to stay "locked" open in the upright position during hook-up. A "soft touch" unlocks it for closing.

All Stainless Steel 30A, 50A and Phone/Cable TV inlets include the Easy Lock™ feature on the cap and boss.

These inlets are solid cast marine grade 316 stainless steel and include a heavy duty cap strap for strength and durability.

CONTOURED INLET

MARINCO's contoured inlets feature a Soft Touch cap design. The Soft Touch hinge is designed to stay open in the upright position during hook-up. A "soft touch" allows it to close.

All contoured 30A and 50A inlets include the Easy Lock™ feature on the boss for easy cordset hook-up. An Easy Lock ring is included with the inlet to adapt to any cordset.

These inlets are designed to complement the high-style appearance of today's smooth deck designs.

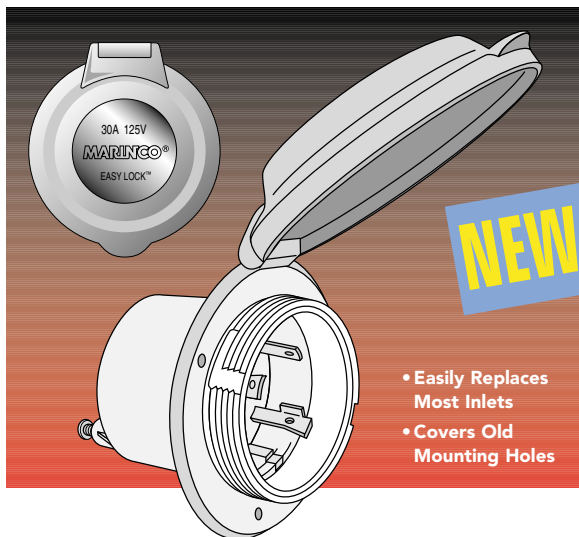

MARINCO®

30A 125V POWER INLETS

When closed, all inlets exceed
ABYC Watertight Requirements
for boat inlets.

3-Wire Locking

- Easily Replaces Most Inlets
- Covers Old Mounting Holes

CONTOURED INLET

304EL-B

30A 125V Power Inlet

Female PowerCord PLUS with blunt end.

MARINCO Easy Lock™ System

Connect the cordset to any MARINCO inlet with the Easy Lock™ ring. A simple 1/8 twist provides a positive watertight hook-up (use the threaded ring included with the cordset for hook-up to ordinary threaded inlet).

Power Indicator Light

Boatside connector features a molded-in LED light. When it glows red, you know you have power to the boat.

Contour Grip

Both plug and connector ends are molded to fit the contour of your hand.

Thumbprint Locator

When the thumbprint is in the 12 o'clock position the blades line up for easy connection.

NEW

The new 104SPP and 105SPP pigtail adapters feature:

- Power Indicator Light
 - Contoured Grip
 - Thumbprint Ground Blade Locator
- (See page 8 for more information.)

MARINCO'S unique sealing collar system with cover joins the adapter to the cordset with a positive, mechanical connection which provides maximum moisture protection.

5 YEAR WARRANTY

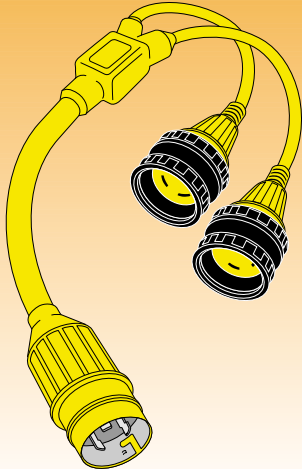

When using any adapter remember: 1. Outlet and equipment must be of the same voltage rating. 2. Total amperage drawn should not exceed amperage rating of the lowest rated component of the adapter. 3. Polarity and grounding must be maintained both dockside and boatside. 4. A single cordset should only draw power from a single receptacle.

SHORE POWER

BOATSIDE

Reverse "Y" Adapter

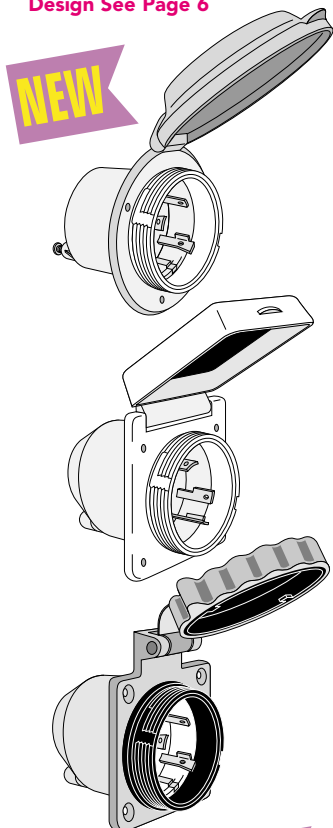

The Reverse "Y" adapter (167RY) has two male plugs with special power isolation circuitry for added safety. When one plug is connected to a receptacle, the circuitry isolates the second plug. The Reverse "Y" provides 50A 125/250V power when only 30A 125V receptacles are available. (Note: will NOT work with 125V, 3-wire inlets.) Power is provided in both circuits to the 4-wire inlet, but the dockside receptacles limit the current in each circuit to 30 amps. The two 30A 125V receptacles must be supplied from a single power source providing from 208V to 250V between them for proper operation.

MARINCO®

220V SHORE POWER SYSTEMS

For More Information About
The MARINCO Easy Lock™
System And Soft Touch Cap
Design See Page 6

MARINCO Shore Power Systems utilize a "locking style" design. This feature provides superior watertight closure, corrosion resistance, and the comfort of knowing the device is safely locked in place versus pin and sleeve designs. MARINCO is respected around the world by boat & RV builders as the manufacturer of high quality shore power systems.

- Easy Lock System
- Soft Touch cap design
- Rear safety enclosure with strain relief

6371ELX

**32 Amp (50A) / 220 Volts
50 Hz Power Inlet**

Same as 6371EL-BX without rear safety enclosure

50SPPX

**16A 50' Cordset
with Female Connector
15.24 Meters**

Male end blunt cut
12/3 (3.3mm²) cable
16 amp / 220 volts 50 Hz

- Same features as our 50SPP cordset, see page 8

25PCMX

**16A 25' Cordset
with Female Connector
7.62 Meters**

Male end blunt cut
12/3 (3.3mm²) cable
16 amp / 220 volts 50 Hz

50PCMX

**16A 50' Cordset
with Female Connector
15.24 Meters**

Male end blunt cut
12/3 (3.3mm²) cable
16 amp / 220 volts 50 Hz

6153CRX

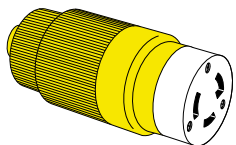

**32A 50' Cordset
with Female Connector
15.24 Meters**

Male end blunt cut
8/3 (8.6mm²) cable
32 amp / 220 volts 50 Hz

MARINCO International cordsets comply with European color codes...
Blue/Neutral; Brown/Hot; Green with Yellow Stripe/Ground.

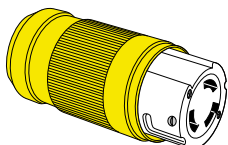

305CRCX

**16 Amp (30A) 220V
Female Connector**
Use with 16 amp system

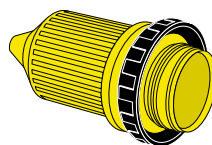

6360CRNX

**32 Amp (50A) 220V
Female Connector**
Use with 32 amp system

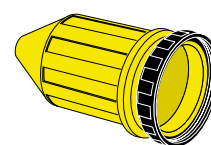

103R

**Weatherproof Cover
with Threaded Ring**
Use with 305CRCX

7715CRN

**Weatherproof Cover
with Threaded Ring**
Use with 6360CRNX

Notice Concerning CE Approval: There are no directives specifically covering shore power inlets or shore power cordsets. Consequently, these products are not eligible to bear the CE logo. However, the use of the components in boats is in compliance with ISO/DIS 13297, "Small Craft--Electrical Systems--Alternating Current Installations." The shore power inlets with their covers closed and the inlets when mated with shore power cable, meet IEC 529-IP56 for degree of protection by an enclosure.
